Jeremy Shaw, Principal San Luis Obispo, California	Private Client Engagement Sponsor	Reference No. #70 Issued May 19, 2026 Valid Through June 18, 2026

SCOPE OF WORK & DELIVERABLES

Bespoke Generative AI Content Infrastructure

Reference: AI-INFRA-70 · On-site engagement
Total time invested: 11 hours (3 hrs antecedent research · 8 hrs on-site implementation)

I. Antecedent Market Intelligence & Competitive Benchmarking — 3 hrs

Conducted a state-wide audit leveraging an autonomous AI agent to systematically analyze the content production methodology, hook architecture, and audience engagement patterns of every window-tint operator across California. Findings were synthesized into a proprietary creative directive informing downstream model prompting.

II. Custom Claude-Powered Content Generation Engine — built on-site

Engineered a fully automated, large-language-model-driven content generation system architected around the sponsor's audience demographics and brand voice. The engine autonomously produces high-converting ideation, hook variations, and narrative leads at scale.

III. Sandcastle Platform Integration & Pipeline Orchestration

Embedded the Sandcastle platform directly into the content pipeline with full system orchestration, enabling seamless cross-component data flow and unified workflow execution.

IV. Claude Code Deployment & Terminal-Level Configuration

Provisioned and configured Claude Code at the terminal level, granting native command-line access to Anthropic's frontier model for arbitrary engineering, scripting, and automation use cases on demand.

V. Concierge Post-Engagement Support — included

Continued white-glove advisory at no additional cost: unlimited on-site consultation and direct-line telephone access for issue resolution, system optimization, and ongoing strategic guidance.

FEE SCHEDULE

Bespoke Generative AI Content Infrastructure	11.0 hrs	\$1,200.00
Total Due		\$1,200.00

PAYMENT & TERMS

Net terms: due upon receipt. All deliverables built, integrated, and handed off in full, with continued advisory included at no additional cost.
